

DIPLOMA IN INTERIOR DESIGNING

TWO-LEVEL PROFESSIONAL PROGRAM

Level 1: Diploma in Interior Designing (3 Months)

Level 2: Advanced Diploma in Interior Designing (6 Months)

About the Program

The Diploma in Interior Designing at Prime Easy Learn Training Institute is a comprehensive, career-focused program designed to develop creative, technical, and professional competencies required in today's interior design industry. This two-level structure allows learners to progress from strong design fundamentals to advanced professional practice covering residential and commercial interiors.

The curriculum is carefully combined and structured from theory, studio practice, industry-standard software training, and real-world project execution.

Program Structure Overview

Level 1: Diploma in Interior Designing (3 Months)

Focuses on strong foundations, design theory, spatial understanding, materials, interior services, and core software skills with guided studio projects

Level 2: Advanced Diploma in Interior Designing (6 Months)

An intensive professional level covering advanced 3D visualization, rendering, walkthroughs, BOQs, portfolio mastery, and complete residential & commercial projects.

Level 2 covers and builds upon both levels, preparing students for employment, freelancing, or independent practice.

Course Objectives

- Build strong fundamentals in design principles and spatial planning
- Understand materials, construction methods, and interior services
- Develop professional 2D drawings and 3D visualizations
- Master industry-standard interior design software
- Prepare BOQs, BOMs, and professional presentation sheets
- Create a job-ready professional portfolio

Learning Outcomes

Upon completion, students will be able to:

- Conceptualize and execute interior projects end-to-end
- Design functional and aesthetic residential & commercial spaces
- Produce professional drawings, 3D renders, and walkthroughs
- Manage interior projects with basic estimation and costing
- Work confidently in design firms or as freelance designers

LEVEL 1 – Diploma in Interior Designing (3 Months)

Module 1: Introduction to Interior Design

- Overview of interior design industry
- Career opportunities and professional roles
- Scope and value of interior design

Module 2: Theory of Design

- Elements of design
- Principles of design
- History of design
- Form and space
- Design control

Module 3: Spatial Design

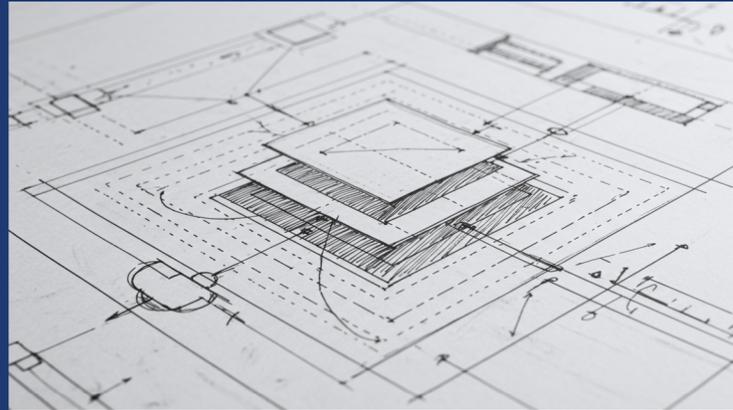

- Wall planes
- Floor planes
- Roof planes
- Staircases
- Partitions and space divisions

Module 4: Color Psychology

- Impact of color on spaces
- Color usage based on function
- Color selection based on age groups

Module 5: Materials & Construction

- Introduction to building materials
- Wall finishes
- Floor finishes
- Doors and windows
- Ceiling finishes
- Recent advancements in materials

LEVEL 1 – Diploma in Interior Designing (3 Months)

Module 6: Design Studio (Practical)

- Understanding design needs
- Design process
- Function and space planning
- Project typologies

Module 7: Interior Services (MEP & HVAC)

- Plumbing services
- Electrical services
- HVAC systems
- Room acoustics

Module 8: Lighting Design

- Introduction to lighting
- Types of lighting
- Effect of color in lighting
- Luminaires and fixtures

Module 9: Landscaping in Interiors

- Basics of landscaping
- Types of landscape
- Interior landscaping concepts
- Plant study

Module 10: Core Software Training (Level 1)

- AutoCAD – 2D drafting & layouts
- SketchUp – Basic 3D modeling
- V-Ray / Enscape – Introductory rendering
- Photoshop – Basic post-production

Level 1 Output

- AutoCAD project (Residential)
- Basic 3D interior visualization
- Design studio assignments

LEVEL 2 – Advanced Diploma in Interior Designing (6 Months)

Advanced Design & Professional Practice

- Advanced space planning
- Commercial interior standards
- Client presentations & design justification

Advanced Software Mastery

AutoCAD (Advanced)

- Detailed working drawings
- Layout management
- Annotation & plotting
- Residential & commercial projects

3DS Max

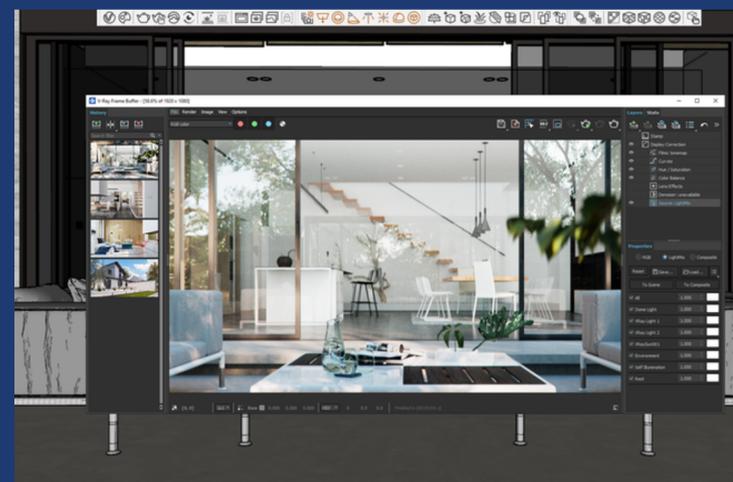

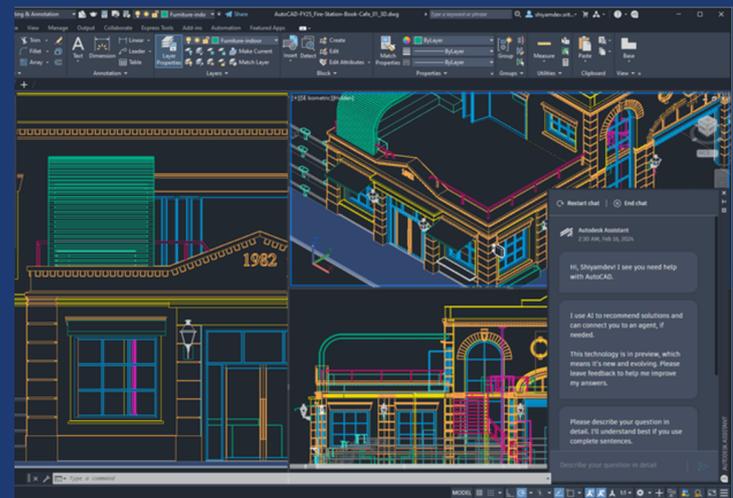

- Editable poly modeling
- Advanced materials & textures
- Lighting concepts
- Cameras and rendering
- Complete interior projects

V-Ray Rendering

- Photorealistic lighting
- Global illumination
- Material workflows
- Render optimization

Lumion

- Real-time visualization
- Advanced materials
- Environmental effects
- Video walkthroughs

LEVEL 2 – Diploma in Interior Designing (6 Months)

Photoshop (Advanced)

- Render post-production
- Adding people, vegetation, effects
- Portfolio sheet design

Project Management – Interiors

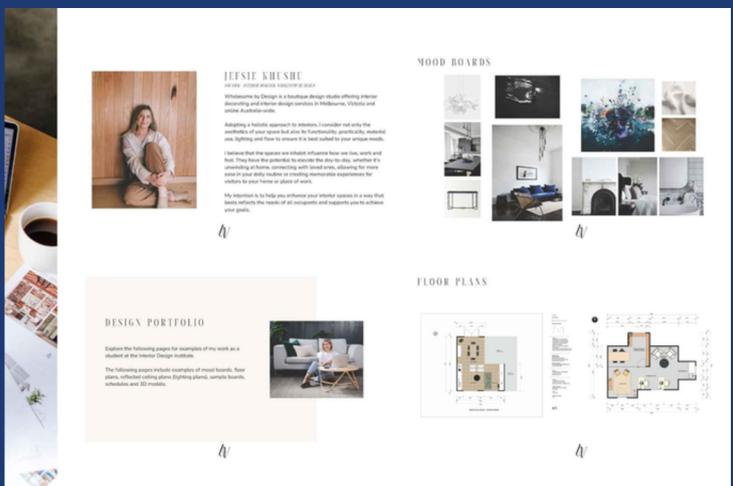

- Planning and execution
- Estimation and costing
- BOQ & BOM preparation
- Practical site challenges

Portfolio Development

- Professional presentation sheets
- Residential interior project
- Commercial interior project

Software Tools Covered

- AutoCAD
 - SketchUp
 - 3DS Max
 - V-Ray
 - Lumion
 - Photoshop
- 
- 
- 
- 
- 
- 

Assessment & Certification

- Continuous practical assessments
- Design studio evaluations
- Final residential & commercial projects
- Portfolio submission

Successful candidates receive

Diploma in Interior Designing (Level 1)

Advanced Diploma in Interior Designing (Level 2)

Who Should Enroll?

- Aspiring interior designers
- Architects & civil engineers
- Creative professionals
- Entrepreneurs entering design business
- Students passionate about space design

Why Choose Prime Easy Learn Training Institute?

- Industry-aligned curriculum
- Practical studio-based learning
- Expert faculty with real-world experience
- Latest software & tools
- Career guidance & portfolio support
- Flexible learning approach

Career Prospects

Interior design offers a high-demand, creative, and future-focused career across residential, commercial, and hospitality sectors. This diploma equips students with practical skills, advanced software expertise, and a professional portfolio, making them industry-ready for employment, freelancing, or entrepreneurship.

Graduates can work as Interior Designers, 3D Visualizers, Design Consultants, Project Coordinators, or Site Supervisors, and also pursue freelance work or start their own interior design studio. With experience, learners can grow into senior design, project management, or business leadership roles, building a sustainable and rewarding career in the interior design industry.
